Computer Technician / Engineer (Intern / Entry-Level) | Ghana

Description

We are looking for a motivated and enthusiastic **Computer Technician / Engineer (Intern)** who is eager to build a career in **enterprise IT hardware and support** across Ghana.

This is a great opportunity for fresh graduates who are passionate about technology and willing to learn hands-on.

Responsibilities

- Assist in installation, configuration, and maintenance of IT hardware (servers, storage, networking equipment)
- Support onsite and remote troubleshooting for customer systems
- Work with senior engineers on enterprise hardware projects
- Perform system checks, upgrades, and preventive maintenance
- Maintain service reports and documentation
- Provide basic technical support to customers

Requirements

- Bachelor's or Master's degree in Computer Science, IT, or related field
- Fresh graduate or internship-level candidate
- Basic understanding of computer hardware and networking
- Willingness to learn and work on enterprise systems
- Good problem-solving and communication skills
- Willingness to travel across Ghana for customer support

Requirements

- Hands-on training with enterprise IT hardware
- Opportunity to work with experienced engineers
- Career growth in IT infrastructure and support
- Exposure to real customer environments across Ghana
